Bar & Brief Attorneys, a full-service law firm based in Mumbai, has entered into a referral alliance and service association agreement with H&S India Law Firm (HSILF) Advocates, another full-service law firm also based in Mumbai.

HSILF is a preferred Indian referral partner law firm for a few major law firms from China, Taiwan, Singapore and Hong Kong. It has advised many state-owned and private entities and investors for their investments in India.

Bar & Brief specialises in media and entertainment (both litigation and non-litigation) and also services clients in corporate and commercial laws, intellectual property rights, data privacy, real estate laws, family law, corporate secretarial practice and general civil and criminal litigation before all courts and tribunals.

The collaboration between the two firms aims at a referral tie-up and expansion in terms of practice areas as well as geographical reach.

Commenting on the alliance, Managing Partner of Bar & Brief Ravi Suryawanshi said in a press release,

"B&B is indeed privileged to be associated with HSILF and this association is a part of the firm's strategy to expand its presence and focus on newer markets and emerging trends in international forums. This collaboration will help both the firms move forward and accelerate the growth."

Equity Partner at Bar & Brief Priyanka Suryawanshi, added,

"This partnership will provide a range of sector-agnostic services to the clients. This combination is not just a strategic alliance but a transformative force which will help our clients to navigate the global marketplace by combining our legal expertise and acumen."

Managing Partner of HSILF Warun Kumbhar said,

"This association will help us to add our own and unique value proposition to each other. Further, I believe that with the market reach, we both as one team can be in a better position to cater to our digitally enabled clients...With this collaboration, we are sure that the productivity and efficiency of both teams will increase, leading to the successful completion of projects..."

Partner Sagar Kumbhar commented,

"In today's fast paced environment "do it alone" is not a proper approach to growth and partnership is the key to better serving clients by merging talent, opportunities, expertise, technology and purpose. With this hope, we (B&B and HSILF) look forward to create a benchmark with the cooperation of each other to bring the change and growth we desire."

Partner Anam Shaikh said,

"By merging our strengths and expertise, we can provide unparalleled value to our clients and broaden our competencies in Intellectual Property Rights and Corporate Law. I am confident that our combined efforts will ensure success for both firms. This collaboration represents a significant leap forward and offers immense growth opportunities..."
